

Food Vendor Pollution Prevention Guidelines

***** All storm drains on campus discharge directly to local streams ****

Kitchen grease spilling into a storm drain on campus (2012)

Pollutants go through storm drain system and enter streams

Grease in a campus stream after a 2011 UNC Home Football Game

Mop Water

- * NEVER pour mop water or any cleaning chemical down the storm drains.
- * Use sinks that are connected to the sanitary sewer for disposing of mop water. A hot water tap is a good indicator that the sink is OK for this use.
- * Don't use hand-washing sinks for disposing of mop water.

Water from Cooking Operations

- * NEVER pour water from cooking, steamer trays, water baths, dish washing, or other food preparation activities into a storm drain.

Used Cooking Oil

- * NEVER pour cooking oil or grease down the storm drains.
- * Spill kits are handy, but if you don't have a spill kit and you have a cooking oil spill, call your UNC contact person to bring spill clean-up supplies.

Questions? Need help cleaning up a spill?

- * **Weekdays:** Call EHS at (919) 962-5507
- * **Game Day:** Call the UNC Department of Public Safety at (919) 962-8100
