Bingham: Documents posted on website

Dear friends and neighbors,

After the DWQ public hearing last August on the Bingham Facility, DENR had some follow-up questions for us about our wastewater treatment plan. We have addressed those questions in a series of documents that we sent to DENR on Thursday, January 31. We have also posted the electronic versions on our website so that you can read them. One significant change is that, in response to concerns about the spray field's proximity to school bus stops, we have switched to a drip irrigation system instead of spraying.

We have posted those documents on our website at www.unc.edu/community/Bingham (under correspondence with DENR) or you can access them from the links below.

- [Jan 31, 2013: DENR waste water treatment application](#)
 - [Jan 31, 2013: DENR specifications](#)
 - [Jan 31, 2013: DENR drawings](#)
 - [Jan 31, 2013: DENR design manual](#)

We will schedule a meeting soon to go over this and some other adjustments we have made at Bingham to address concerns expressed at the hearing.

I'll be in touch as soon as we have a date for the meeting.

Best,

Linda
