

Bingham Update 12/23/10

Friends and neighbors:

Yesterday we submitted to the N.C. Department of Environment and Natural Resources a revised project plan for wastewater treatment at the Bingham Facility as well as a schedule for its implementation. This revision is related to a recent change in the School of Medicine's strategic plans for large animal research and the role of the Bingham Facility. We have posted the letter and the schedule to our Bingham Facility website (<http://www.unc.edu/community/bingham.html>). I will answer as many questions as I can about the change at our next regularly scheduled meeting on Jan. 10, 2011, at 4:30 p.m. Please RSVP to this email if you plan to attend so that we will have enough room for everyone.

Sincerely,

Bob Lowman
