Re: Drinking Water Testing

Occupants of Caldwell Hall,

Environment, Health and Safety has performed comprehensive drinking water testing for detectable lead in your building and has found no detectable lead present. Below are the fixtures that were tested as well as the results:

<table>
<thead>
<tr>
<th>Sample Date</th>
<th>Location</th>
<th>Type</th>
<th>1st Sample (ppb)</th>
<th>2nd Sample (ppb)</th>
</tr>
</thead>
<tbody>
<tr>
<td>10/5/2022</td>
<td>Near Room 208</td>
<td>drinking fountain</td>
<td>non-detect</td>
<td>non-detect</td>
</tr>
<tr>
<td>10/5/2022</td>
<td>Near Room 107</td>
<td>drinking fountain</td>
<td>non-detect</td>
<td>non-detect</td>
</tr>
</tbody>
</table>

Now that testing is complete, the drinking water fixtures will be placed back in service and signs will be removed. Questions can be directed to the Environment, Health and Safety Department at 919-962-5507. Campuswide drinking water updates can also be seen at the EHS website and on the EHS Twitter account at @unc_ehs.

Thank you,  
Catherine Brennan  
Executive Director of Environment, Health and Safety
