Re: Drinking Water Testing

Occupants of Hill Commercial,

Environment, Health and Safety has performed *partial* drinking water testing for detectable lead in your building and has found no detectable lead present. Below are the fixtures that were tested as well as the results:

<table>
<thead>
<tr>
<th>Sample Date</th>
<th>Location</th>
<th>Type</th>
<th>1st Sample (ppb)</th>
<th>2nd Sample (ppb)</th>
</tr>
</thead>
<tbody>
<tr>
<td>10/19/2022</td>
<td>Near Room 207</td>
<td>drinking fountain</td>
<td>non-detect</td>
<td>non-detect</td>
</tr>
</tbody>
</table>

The drinking water fixtures that showed no detectable lead will be placed back in service and signs will be removed. Questions can be directed to the Environment, Health and Safety Department at 919-962-5507. Campuswide drinking water updates can also be seen at the [EHS website](#) and on the EHS Twitter account at [@unc_ehs](#).

Thank you,
Catherine Brennan
