

Pfleger Named Safety Officer

Chancellor William B. Aycock has announced the appointment of Raymond C. Pfleger, formerly of Pittsburgh, Pa., to be radiological safety control officer of UNC.

His appointment has the approval of the President. Pfleger, a health physicist will supervise the purchase, distribution and disposal of radioactive materials used in a number of laboratories in the University.

Radioactive isotopes are used for research and teaching purposes in several areas of science and medicine in the University, and the supervision of the use of radioactive materials has been going on for several years. Employment of Mr. Pfleger is the latest step in the continuing program.

Pfleger is a graduate of St. Peter's College in New Jersey with a B.S. degree in chemistry and an M.S. degree from Duquesne University.
